EXPERIENCE

Frontend Developer
Mehtic Technologies   October 2023 – Present, FCT, Abuja

· Developed responsive and user-friendly front-end interfaces using HTML, CSS, and JavaScript, resulting in a 50% reduction in page load time and an improved overall user experience.
· Developed and implemented two distinct dashboards to streamline and segregate backend and frontend functionalities, resulting in a significant reduction in page load times.
· Seamlessly integrated backend APIs with the frontend, ensuring smooth data flow and enhancing the overall functionality of web applications.
· Implemented impactful design changes on existing websites, strategically enhancing user experience and contributing to a more intuitive and visually appealing interface.

PROJECTS

Card Vault
December 2022 – Present
· Led the development of Card Vault, a secure React Native mobile application, enabling users to centrally store and manage diverse card information securely.
· Implemented secure storage features for driver's licenses, National ID cards, and credit card details, enhancing user convenience.
· Designed an intuitive user interface for seamless navigation and an enhanced overall user experience.
· Utilized React Native, ensuring cross-platform compatibility and optimal performance of the application.
· Integrated Supabase backend for a reliable and scalable infrastructure, incorporating secure authentication measures to safeguard user data.

ResuMate
https://resumate-io.web.app · June 2023 – September 2023
· Spearheaded the development of ResuMate, a dynamic web application enabling rapid and intuitive creation of professional resumes.
· Implemented an extensive template selection feature, providing users access to a diverse range of professionally designed templates, resulting in a 30% increase in template utilization.
· Engineered real-time preview functionality, empowering users to visualize changes instantly during customization, reducing editing time by 25%.
· Orchestrated the integration of user accounts, streamlining the management of multiple resumes, resulting in a 40% improvement in user resume organization.
· Utilized ReactJS for the frontend, Firebase authentication for enhanced security measures, ExpressJS for a robust server infrastructure, and MongoDB for efficient and scalable database management.

EDUCATION

Bachelor of Technology, Architecture
Federal University of Technology, Akure · Akure,Nigeria · 2024

SKILLS

Frontend: ReactJS, TypeScript, JavaScript, React Native, Dart, Flutter, Next.js

Backend: Node.js, Express.js, Firebase, Supabase

Database: MongoDB, PostgreSQL

Version Control and Collaboration: Git, GitHub
